FOCUS

Multidiscplinary designer with a focus at the intersection of people and technology, weaving lessons from natural systems into creative solutions, delightful interactions, and computational models.

RECENT WORK EXPERIENCE

## EYEWIRE, A GAME TO MAP THE BRAIN | MIT

Lead Interaction & Front-End Designer, 2015-

Responsible for leading design decisions and managing a team of designers + illustrators to best serve a diverse community of online gamers and science enthusiasts. Created identity systems, design UX + UI guidelines, and implemented production—quality code.

Worked with an interdisciplinary team of artists, scientists, and developers to transform complex theory into playful systems, delightful interface, and interactive story-telling.

### **BEANTOWNVR**

Founder, Creative Director, 2016

Founded a Boston based virtual reality project positioned to explore the complexity of scientific and tech spaces through browser based interactive narrative and immersive data visualization experiences.

### MACRO CONNECTIONS | MIT MEDIA LAB

Designer + Developer + Researcher, 2014

Designer for a multi-disciplinary team of researchers, architects, urban planners, physicists and developers creating an application helping specialists find insights in complicated data streams.

### SEUNG LAB | MIT, MCGOVERN INSTITUTE

*UROP + Designer, 2013–2014* 

Designer + Animator alongside a lab of computational neuroscientists. Established an identity system and assisted in preparing national publications, animations, and 3D figures from raw data.
